

Peanut Power QRP Sprint Sponsored by the North Georgia QRP Club

www.nogaqrp.org

Date: Oct. 1, 2017. **Time:** 2000Z to 2200Z – later in the day to catch west coast stations.

Object: Work as many Peanut Power numbers as possible on the 40, 20 and 15M bands.

Peanut Numbers: May work anyone. Others – work only those with Peanut Numbers.

Peanut Power Numbers: Get your number from pete@nogaqrp.org After August 1, 2017. No numbers will be given out for 2017 after 12:00 noon on Sunday, October 1, 2017 EDST.

Suggested Call – Either CQ QRP (or CQ NUT for those with a PP number)

Exchange Peanut Power Number Stations – RST, S/P/C, Peanut Number.

Non Peanut Power Number Stations – RST, S/P/C, Output Power.

Mode – CW, SSB

S/P/C

Power – See Categories **Scoring** – Working a

Peanut Station – 7 points

State/Province/DX

Working a non-Peanut Station – 3 points

"Peanut Pete"

Total Score equals the **total QSO points** times the number of **S/P/Cs** worked on all bands or modes (the same stations may be worked on multiple bands/modes for QSO points and S/P/C credit). There is not a multiplier for different classes or power, simply different categories. Enter in the category that applies. Maximum power for any band/mode determines your category for the entire contest.

Categories

Goober – 1w (2w PEP SSB) output power or less – **Portable** – This is the **Prestige** Peanut Power Class!

Salted – 5w (10w PEP SSB) output power or less -**Portable**

Boiled – 1w (2w PEP SSB) output power or less – **Home Station**

Roasted – 5w (10w PEP SSB) output power or less – **Home Station**

Raw – **Over 5w** (over 10w PEP SSB) output power – **Home or Portable**

There is no theme nor hiking required. If you are at home on home antennas, you are a home station. If you are Portable (outside on a temporary antenna), you are portable, even on your own property. You may request a Peanut Number for use in any category.

Focus – In order to promote a focus of activity, we recommend the following frequencies. Up from 7061, 14061 and 21061 for CW and 7285, 14285 and 21285 for SSB. The length of this sprint is only 2 hours and score may be maximized by working all 3 bands and both modes.

Logging – The Peanut Power Sprint is supported by **W3KM's 'GenLog'** logging program. Use the latest version **v8.13 (or later)**.

Entry – Send your Pnut number if any, nut Qs, non nut Qs, S/P/Cs, score, including QSO Points & Multiplier via email to pete@nogaqrp.org by Oct. 15, 2017. You can calculate your score from the Peanut Power Web Site.

All of this information should be sent via the Peanut Power Sprint pages of www.nogaqrp.org.

The website function will send your information directly to Pete.

Awards -Plaques will be awarded to category winners. Logs should **NOT** be submitted with your entry but category winners will be asked to submit full logs for checking.

The North Georgia QRP Club caters to QRPers in the Atlanta/north Georgia area with 150 members. We regularly have 30 people at our meetings the second Saturday of the month and have a website – nogaqrp.org. NoGa is a no dues, no officer, no rules and no formality club – Just FUN with QRP.
