

Peanut Power QRP Sprint Sponsored by the North Georgia QRP Club

www.nogaqrp.org

Date: October 4, 2020. **Time:** 2200Z to 2395Z – later in the day to catch west coast stations.

Object: Work as many Peanut Power numbers as possible on the 80, 40 and 20M bands.

Peanut Numbers: May work anyone. Others – work only those with Peanut Numbers.

Peanut Power Numbers: Get your number from pete@nogaqrp.org No numbers will be given out after 12:00 noon on Sunday, October 4th, 2020 EDT. Numbers for the peanut power sprint are now permanent and will be used year to year.

Suggested Call – Either CQ QRP (or CQ NUT for those with a PP number)

Exchange Peanut Power Number Stations – **RST, S/P/C, Peanut Number.**

Non Peanut Power Number Stations – **RST, S/P/C, Output Power.**

Mode – CW, SSB

Power – See Categories

Scoring – Working those with numbers 5 points

Those no-number on different continent 4 points.

Those without a number 2 points.

S/P/C State/Province/DX
--

“Peanut Pete”

Total Score equals the **total QSO points** times the number of **S/P/Cs** worked on all bands or modes (the same stations may be worked on multiple bands/modes for QSO points and S/P/C credit). There is not a multiplier for different classes or power, simply different categories. Enter in the category that applies. *Maximum power* for any band/mode determines your category for the entire contest.

Categories

Goober – **1w** (2w PEP SSB) output power or less – **Portable** – This is the **Prestige** Peanut Power Class!

Salted – **5w** (10w PEP SSB) output power or less - **Portable Boiled**

Boiled – **1w** (2w PEP SSB) output power or less – **Home Station**

Roasted – **5w** (10w PEP SSB) output power or less – **Home Station Raw** –

Over 5w (over 10w PEP SSB) output power – **Home or Portable**

There is no theme nor hiking required. If you are at home on home antennas, you are a home station. If you are Portable (outside on a temporary antenna), you are portable, even on your own property. You may request a Peanut Number for use in any category.

Focus – In order to promote a focus of activity, we recommend the following frequencies. Up from 3561, 7061 and 14061 for CW and down from 3999 LSB, 7299 LSB and 14341 USB for SSB. The length of this sprint is only 2 hours and score may be maximized by working all 3 bands and both modes.

Logging – The Peanut Power Sprint is supported by **W3KM’s ‘GenLog’** logging program. Use the latest version **v8.13 (or later)**.

Entry – We are working out the details of submitting your entry for 2020. Stay tuned to the nogaqrp.org website for details. All entries will be due before October 21, 2020.

Awards - Certificates will be award to category winners.

The North Georgia QRP Club caters to QRPers in the Atlanta/north Georgia area with 150 members. We regularly have 30 people at our meetings the second Saturday of the month and have a website – nogaqrp.org. NoGa is a no dues, no officer, no rules and no formality club – Just FUN with QRP.
